Digital roadmap Alexandra's Bikeshop

Digital vision:

Our priorities are great bikes and happy customers.
We focus on quality and sustainability.
Whenever possible, we use digital tools and channels.
We are expanding digitally throughout Greater London and the East and South-East of England with this formula.
Our teams and bike shops in London form the solid basis for this.

Key topics/new (digital) offerings:

- 1 Increased focus on our customers and digital marketing.
- 2 Development and market launch of the new carefree service subscription.
- 3 Optimisation and automation of all customer, order and repair processes.
- 4 Implementation of new software solutions.
- 5 Implementation of the new shop concept.

This will be achieved through the following initiatives:

Customer focus
Sustainable growth
Culture and employees
Technologies and processes

Version/Date: 1.0 / 1. August 202x

Project	Action field	Objectives qualitative/quantitative	Separate project/ business plan yes/no	Responsible project management	Project budget investment and ongoing operations	Dates and milestones (M = milestone)	Progress traffic light and optional text	Project duration											
								Year 1		Year 2				Year 3					
								Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4		
New shop concept (planning and implementation)	Customer centricity	The bike shop in London is to be given a modern shop concept by April that reflects the positioning and brand values and thus leads to sales growth (at least 5% per year in the shop).	Yes	Alexandra	Shop fitting: £45,000 Marketing collateral: £12,000 Operation: see business plan	Planning of new shop concept: August to November (M1) Shopfitting: January to April (year 2) Preparation of marketing collateral: February to March New opening: April (M2)	Alexandra needs support, a solution is being sought Dependence on progress in the second bike shop project												
Customer database	Data and the cloud	The CRM (see ‘Technologies and processes’) is to be used to record and enrich all customer data in order to carry out all marketing and sales measures from year 2 onwards on the basis of quality data. The email open rate should be >30% and 4% of customers should complete a purchase transaction from each campaign.	No	Alexandra	No further costs are planned (included in the CRM budget), see ‘Implementation of new software solutions’ in the ‘Technologies and processes’ initiative.	Start of new CRM: January (year 3) Recording of all existing customer data: Until March (M1) First marketing campaign with CRM: April to May CRM expansion: from June (year 3)													
Video marketing and social media	Digital marketing	A short video is to be produced every fortnight and shared on social media. The aim is to build an online community (with at least 2,000 followers in the first year and 4,000 followers in the second year with monthly activation of 10% of followers)	No	Corin	One-off: Video equipment with good microphone: £2,400 Software: £200 Training preparation: £1,000 Video intro sequence: £800 Ongoing: Paid social/month: £400	Development of plan: October Ordering equipment and training: November/December First video on Facebook and Instagram (M1): End of January	● Project running according to plan												

- Project running according to plan
- Project has problems
- Project is delayed

Project	Action field	Objectives qualitative/quantitative	Separate project/ business plan yes/no	Responsible project management	Project budget investment and ongoing operations	Dates and milestones (M = milestone)	Progress traffic light and optional text	Project duration											
								Year 1				Year 2				Year 3			
								Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4		
Carefree service subscription for bicycle maintenance	New strategies and business models 	The new carefree subscription should be developed by the end of the year and launched in April. Every year, 10% of customers purchase the service subscription. In the first year, we will generate at least £20,000 net, and £35,000 net in the second year.	No	Mary	Marketing collateral incl. landing page: £3,500 Launch campaign: £5,800 Ongoing operation: TBD	Create/document new service: end of October Market test (M1): November to January Marketing collateral: mid-March Market launch (M2): second week of April													
Opening of second bike shop	New strategies and business models 	Our second bike shop will be open by the end of next year. In the first year, the loss should be less than £80,000, in the second year a small profit should be generated. Customer feedback has been nothing but positive from day one (NPS >80).	Yes	Alexandra	Investments incl. shop fittings and initial inventory: £162,000 Marketing collateral: £18,000 Ongoing operation: see business plan	Search localities: December to March Signing of the contract (M1): April Shopfitting: May to August Installation/branding: September to October Shop opening (M2): November (year 2)	 Bank clarifies credit enquiry, decision unclear												

-  Project running according to plan
-  Project has problems
-  Project is delayed

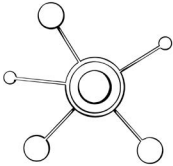

Project	Action field	Objectives qualitative/quantitative	Separate project/ business plan yes/no	Responsible project management	Project budget investment and ongoing operations	Dates and milestones (M = milestone)	Progress traffic light and optional text	Project duration											
								Year 1		Year 2				Year 3					
								Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4		
New work strategy with flexible, self-organised work	Digital leadership and culture 	Employees are given more flexibility and can choose their own working days as long as the company's attendance requirements are met. Employee satisfaction should be >85%.	No	Alexandra	Further develop-ment of ERP for HR planning with web interface: £6,000	Joint development of new work strategy: November Tool development for HR planning: December to January Test period: January to March Decision on final implementation (M1): April													

- Project running according to plan
- Project has problems
- Project is delayed

Project	Action field	Objectives qualitative/quantitative	Separate project/ business plan yes/no	Responsible project management	Project budget investment and ongoing operations	Dates and milestones (M = milestone)	Progress traffic light and optional text	Project duration											
								Year 1				Year 2				Year 3			
								Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q4
Implementation of new software solutions	New technologies 	CRM and ERP are to be optimised for the bike shop and to support process efficiencies in the long term. Orders are to be delivered to the supplier on the same day. Standard repairs are to be carried out in two working days. Customer complaints are to be reduced to fewer than three per month.	Yes	Mary	CRM solution (installation): £2,400 CRM solution (license/support): £3,200 per year ERP solution (installation): £14,800 ERP solution (license/support): £12,000 per year	Search/select IT provider: February Presentation of proposals and selection (M1): April CRM implementation (M2): May to July ERP implementation (M3): July to October Training and test period: July to December	 Timing of the investment is questioned, possibly too many projects at once												
Optimisation and automation of all customer, order and repair processes	Process management 	With a view to improve the customer experience, all processes are to be scrutinised, documented and optimised so that we do not have to expand the team in London despite our growth targets.	No	Mary	No further costs are planned. Findings and requirements are to be incorporated into the above-mentioned project.	Documentation of all processes: October Process optimisation workshop: November Creation of a catalogue of CRM/ERP requirements (M1): January

- Project has problems
- Project is delayed

The digital roadmap

Template and SME example

How to develop a digital roadmap

Based on strategic input and project ideas/initiatives derived from the workshop canvas for digital transformation or the ACT method – extended workshop canvas, the strategic project candidates developed in the process, which are supported by the owners/board of directors/CEO, lead to the digital roadmap.

In this phase of the strategy development process, the digital vision is described as a summary of all strategic directions. In this final workshop, you will discuss questions like:

- Which services will be offered in a new way?
- How quickly and how intensively should the transformation be carried out?
- What kind of organisation will we become?

The discussions lead to a core statement on the strategy, namely the digital vision, which is written at the very top of your digital roadmap.

As a next step, all strategic initiatives and strategic projects will be documented with goals, responsibilities, project budgets and deadlines:

- **Goals:** what measurable successes (quantitative, such as process speed, cost reduction or sales growth, or qualitative, such as customer/employee satisfaction or product quality) are to be achieved with the initiative/project?

- **Responsibilities:** who leads the initiative/project and is assigned the appropriate tasks, responsibilities and capabilities?
- **Budgets:** what investment and operating budgets are available for the initiative/project?
- **Deadlines:** when does the initiative/project start and end, and what are the key milestones that need to be met (for example, due to reliance on other initiatives)?

Depending on the size of the organisation, separate business plans with investment budgets are also being developed for individual initiatives, each of which must be approved by the owners or the board of directors.

Use this template to summarise your initiatives and projects on the digital roadmap. The documented roadmap gives you an overview; it is a strategic management tool, the basis for your internal communication (e.g. to employees) and an important control instrument. Every month (at least once a quarter), you discuss the progress of the transformation in the team and document successes and changes to the plan.

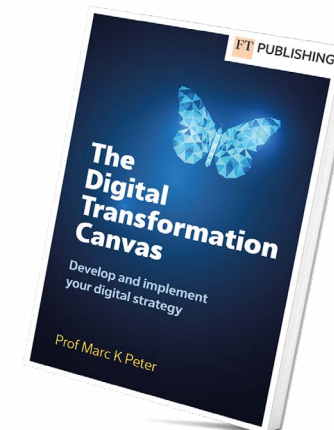

The book

The practical book on digital transformation provides insights and the digital transformation canvas on how to tackle all important digital topics. Together, you and your employees will develop a digital roadmap with clearly described steps that will lead to your business strategy for the digital age.

Why will this book fast-track your digital transformation?

- The Digital Transformation Canvas is a tested practical tool to fast-start your digital roadmap.
- It is extremely practical with step-by-step guidance on how to build a digital strategy.
- Over 80 illustrations visualise case studies and concepts.
- It includes many useful checklists and templates.
- All concepts and checklists have been tested in practice and are based on research insights from thousands of organisations.
